# Summary

Full-Stack web developer with a focus on Front-End. Owning a restaurant for over 16 years, acquired experience in public relations, finances, advertising, and training. While running a restaurant also freelanced as a Graphic Designer, designing advertising materials for various businesses, in 2014 started diving into Digital Design and learned HTML and CSS. Known as creative, also adaptable, disciplined, organized, and loves a challenge, excited to keep learning and looking forward to solving problems. Also fluent in Spanish and Portuguese.

# Technical Skills

### Languages
JavaScript, HTML5, CSS3.

### Applications
jQuery, Node.js, Express.js, Heroku, Git, Handlebars.js, MySQL, MongoDB, SASS, Bootstrap Framework, Materialize Framework, Material UI Framework, React, MERN Stack.

### Others
Slack, Zoom, Mail Chimp, Adobe Photoshop, Adobe Illustrator, Affinity Designer, Affinity Photo, Affinity Publisher, Google Workspace, Microsoft Office.

# Web Development Work Experience

**Graphic Designer | Freelancer | Dallas, TX** | 02/2000 to Present
Proficient in Adobe Photoshop, Adobe Illustrator, Affinity Designer, Affinity Photo, Affinity Publisher, Zoom, Slack, Google Workspace.

### Restaurant Websites
- Two Restaurant' static websites designed to present menus, specials, and contact information.
- Connected both sites to online ordering third-party service and had a sales boost of 25% and 32% in revenue respectively.

# Technical Projects

### CHIEF System

- Inventory Management System, to help businesses to have a broad view of inventory at all times and alerts when a certain item is low in stock, decreasing the time of orders fulfillment by 50%.
- Teamed with three other students to write and develop this Inventory Management System.
- Led the execution of the Front End Development, User Interface, and User Experience Designs.
- Mobile responsive, developed with React, and used Material UI Framework, plus specific CSS3 styling.

### Restaurant User Interface

- Full-stack application, created to help restaurants to have a menu presence online, where menu items can be added, changed, or deleted.
- Teamed with three other students and was responsible for the front-end and wrote most of the back-end of the application.
- Technologies used were Handlebars, JavaScript, jQuery, Express, Signup, and Login ability and MySql for databases.
- Mobile responsive using Shoelace Framework and CSS3 for styling.

### Hungry at Home

- For people who are at home in a Covid-19 lockdown, to give access to meals and drinks recipes and also to stay connected with news related to the virus.
- Partnered with two other students to work from the ground up on the development of this website.
- Created the design, using CSS3's Media Query in conjunction with the Materialize framework, and also facilitated the API's connections.
- Mobile responsive, written with HTML5, CSS3, Materialize Framework, CSS, and JavaScript.

# Additional Experience

**Operation Sales Analyst**
**South Bend Specialty Pharmacy**
South Bend, IN
09/2019 to Present

- Developed a drug website for the sales group to have access to the most used drugs according to patients' illnesses. Improving efficiency and increasing sales.
- Creates and manages Google Sheets for the sales force.

**Tony's Pizza and Pasta**
**Owner-Operator**
Dallas, TX
05/2003 to 06/2019

- Managed the marketing and creative side, creating menus, brochures, marketing materials, designed and updated the restaurant's website, email marketing using Mail Chimp.
- The First 6 months, through targeted advertising, tripled sales.
- Interviewed, hired, and managed employees throughout 16 years.
- Had a close relationship with customers daily, having close to 80 regular customers monthly.
- Oversaw all the financial aspects of the business, productivity tracking, inventory monitoring, sales forecasting, cash flow projection, payroll, payment of services and suppliers, and taxes.
